

## Space Coast Indian Harbour Beach United U12 Girls Participate in "Children's Hunger Project"

The Space Coast Indian Harbour Beach United U12 Girls team participated in the largest single hunger project event ever held in Brevard County. Over \$110,000.00 worth of food was donated by Winn Dixie and over 2500 volunteers donated their time to pack food for needy children throughout Brevard. Yes, there are breakfast and lunch programs available through the Brevard School System, but what happens to these children on the weekend. Kids are hungry on the weekend too. So through the sponsorship of Health First and the United Way, our girls made a difference today. They should be commended on their volunteer work and we at the SCIHBS Soccer Club thank them for their efforts.
